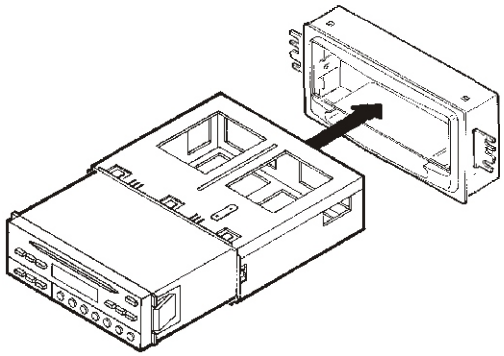
Mount ***Bracket Set "C"*** to the ***Radio Housing*** with ***(2) Carriage Bolts*** and ***(2) Keps Nuts*** supplied in the kit. *Skip to the Installation Instructions for ALL VEHICLES on Page #3.*

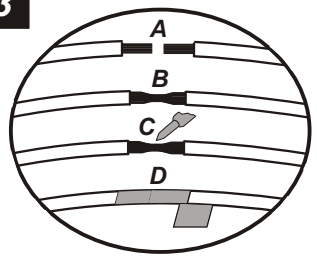
ALL VEHICLES

2



DIN HEAD UNITS: Slide the DIN cage into the ***Radio Housing*** and secure by bending the metal locking tabs down. Slide the aftermarket head unit into the cage until secure.

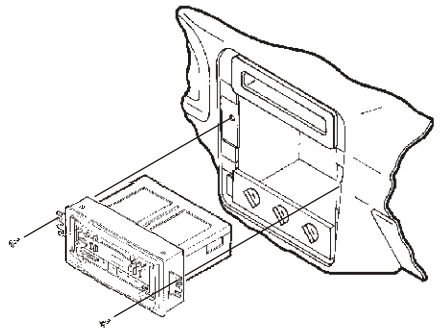
3



A) Strip wire ends back ½"
B) Twist ends together
C) Solder
D) Tape

Locate the factory wiring harness in the dash. Metra recommends using the proper mating adaptor and making connections as shown. (Isolate and individually tape off the ends of any unused wires to prevent electrical short circuit).

4



Re-connect the battery terminal and test the unit for proper operation. Depending on the vehicle you have, snap the head unit/kit assembly into the sub-dash OR mount the head unit/kit assembly to the sub-dash with the (4) factory screws previously removed.
